

Home comfort with energy generation

VELUX skylights with solar panels

VELUX[®]

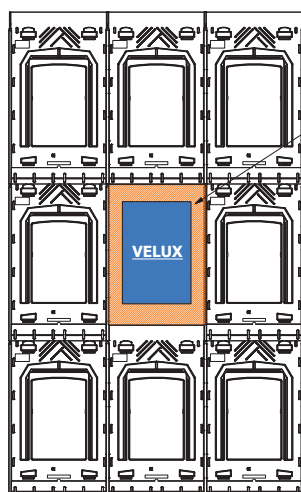

GSE Integration
EUROPEAN LEADER IN PHOTOVOLTAIC INTEGRATION SYSTEMS

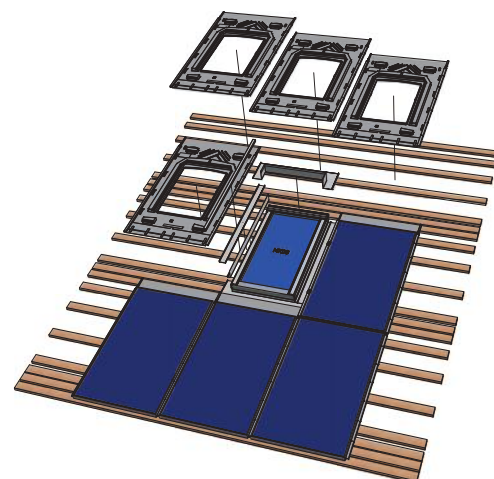

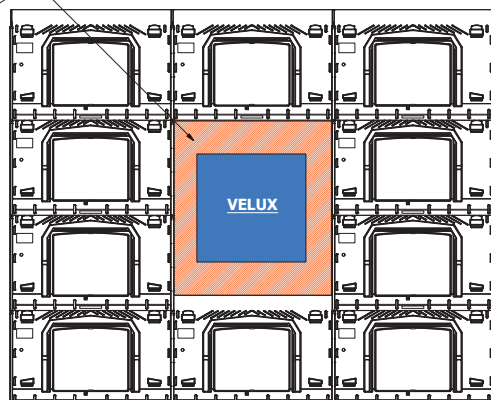

■ Benefits of VELUX windows in combination with GSE IN-ROOF SYSTEM:

- A perfect combination: energy generation, together with comfort and natural light
- Watertight GSE integration system, flexible according to VELUX references
- Suitable for 95% of solar panels, in portrait or landscape format
- Easy and seamless connection to VELUX flashing
- Perfectly matching with VELUX blinds, awnings and a large choice of skylights combinations

■ Connections

Flashing parts to adapt

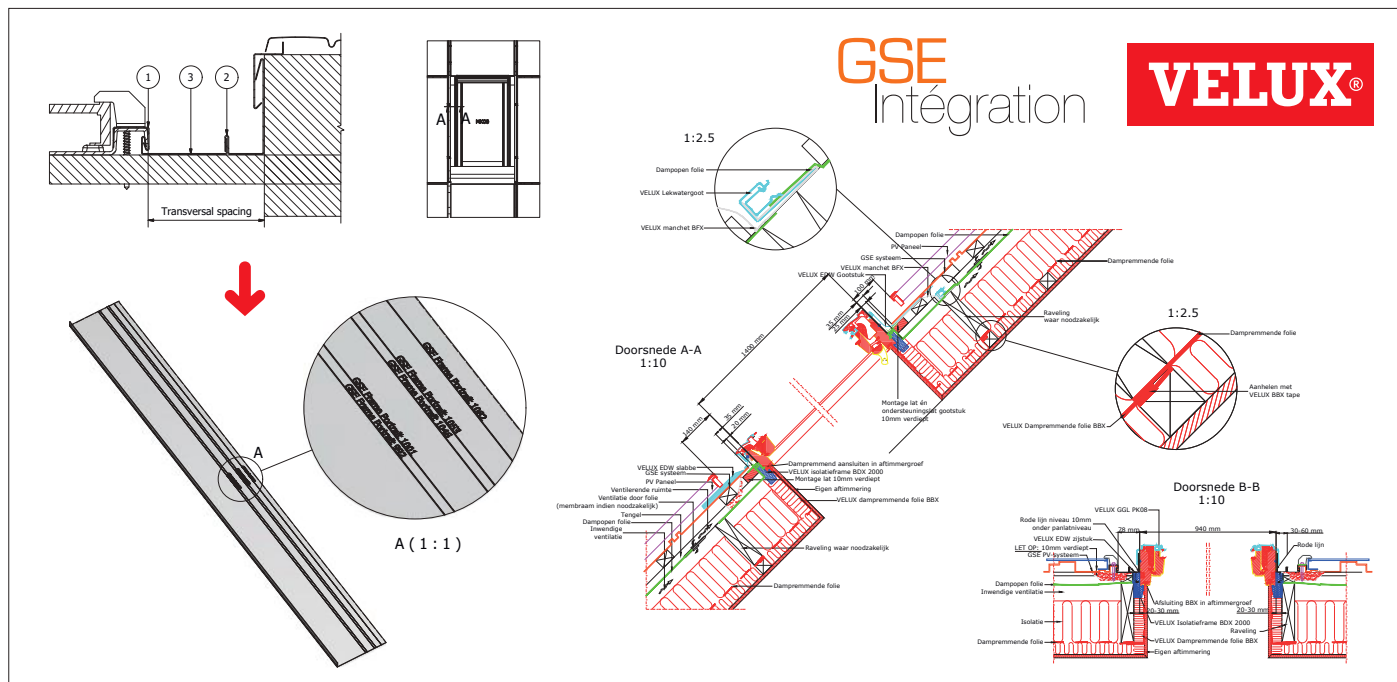

Seal & serviceability maintenance

Perfect passage

Optimal indoor climate

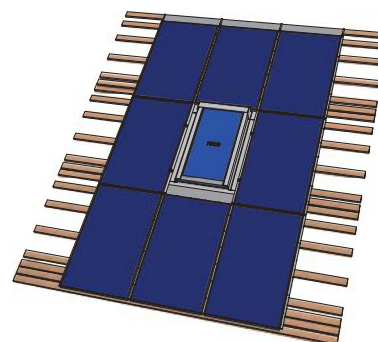

■ Designs for optimal integration
